

International University Catalog 2024

For science educators, by science educators

# Welcome!

Dear educator,

We hope this catalog finds you well and thriving in your classroom. It has been a roller-coaster year! We are thrilled to share some exciting announcements that signify a new chapter in our journey of supporting educators and promoting STEM literacy.

First, we are embarking on a remarkable transition from being a partner-owned company to a Perpetual Purpose Trust. This strategic move will enable us to sustain our mission indefinitely, ensuring that we continue to assist teachers in creating a STEM-literate society. Our commitment to providing durable products and solutions, offering unwavering quality and service, and giving back to the communities we serve and live in remains steadfast. With this change, we know it will remain the same in perpetuity.

This transition was prompted by John Wheeler stepping down from his role as CEO. Although he will no longer be leading the company, he will continue to offer his invaluable guidance and leadership to the organization, supporting our new CEO in maintaining our commitment to your needs and the support of STEM education. Dave and Christine Vernier will also continue to play key roles.

After more than a year of managing the supply chain crisis, we are thrilled to be creating new and exciting tools for teachers again. This year, we are adding new products including Go Direct Salinity, Go Direct Soil Moisture, Go Direct Pyranometer, Go Direct PAR, Go Direct Force Plate, and a Cart Fan.

As always, we are committed to supporting your educational objectives and are excited about the opportunities these new resources bring to your classroom. Thank you for your continued dedication to teaching, and we look forward to continuing to serve your needs in this new chapter of our journey.
